Good day, Dan and Blake:

Thank you again for meeting with our group of concerned citizens last month, Dec. 19, 2017 in which we presented concerns about the Atlantic Coast Pipeline, especially issues around *misrepresentation* by Dominion and Duke Energy regarding the expansion of the pipeline into SC and the illegal practices of land agents in eastern NC.

We are requesting that the AG's office intervene with DEQ and request that DEQ to take immediate action to plan and initiate *new hearings* regarding permits. This has a level of urgency because of recent news (see attached documents provided by DEQ) that Dominion is **planning expansion into SC. It reinforces the issue of Dominion's misrepresentation of its application from the beginning and the veiled purpose of the pipeline.**

(<http://www.kentucky.com/news/business/article193340294.html>)

The (Revised Cumulative Impact Assessment Dec. 20, 2017) attached documents which Dominion sent to NC DEQ, provides evidence to DEQ and the AG to initiate action requiring that a *new application* be submitted by Dominion in the future. Any new application must take into account *new hearings in 2018* (not yet scheduled by DEQ). Dominion's Dec. 2017 recent reports, which have an elaborate emphasis about the statistics of county planning and development in Johnson, Robeson and Cumberland counties, also reveals the deception and misrepresentation which has been perpetrated upon the public by Dominion, including Dominion's insistence to ignore the concerns of indigenous communities and other rural communities in the path of the pipeline.

If there is any problem opening the attached documents due to the large files, please contact DEQ staff directly.

Thanks.

Kind regards,

Kay
